

The story of Noah's ark

God was upset. All the people in the world always fought.

God told Noah to build an ark and get two of each animal in the world. Soon a rain would start and last forty days and forty nights. The flood would cover the world and kill all the evil people.

Noah started building the ark.

It was very big.

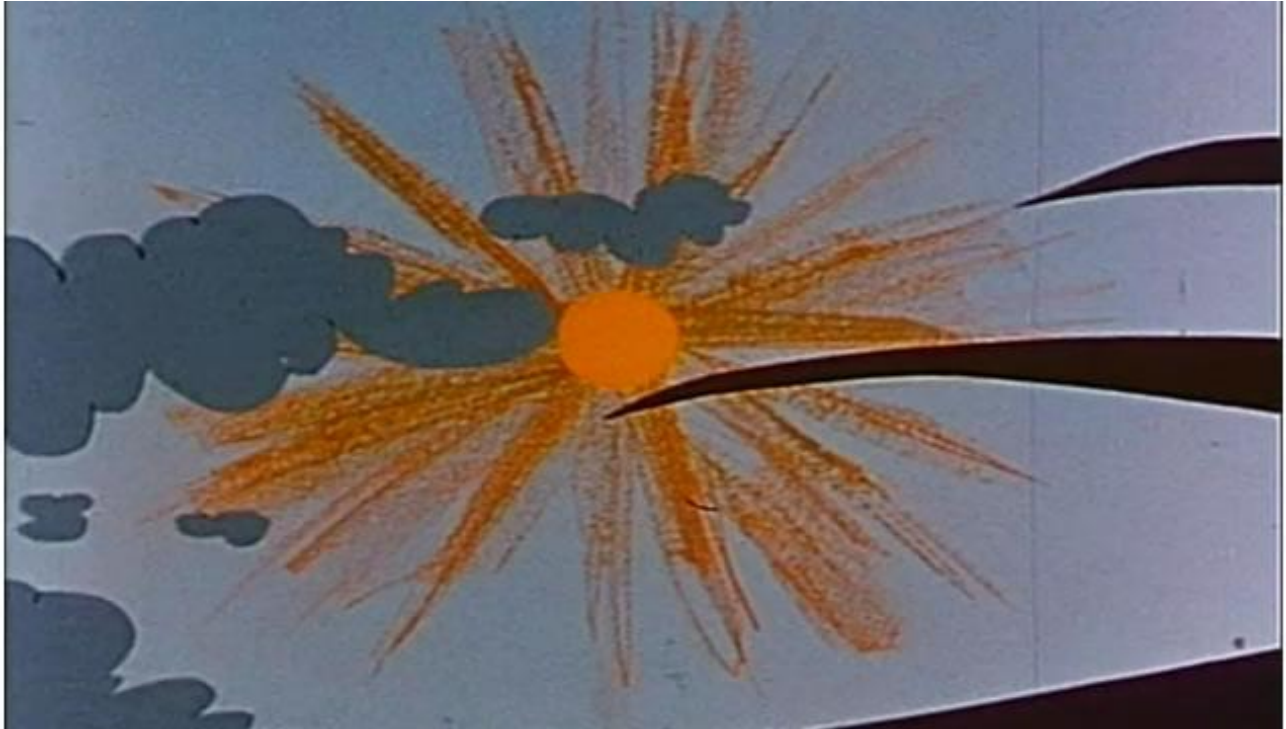

Noah got two of each animal in the world. The animals went into the ark.

An awful storm began.

The rain lasted forty days and forty nights. The flood covered the world

On day forty one, the rain stopped and the sun shone brightly.

The water was so high the ark was now on top of a mountain.

Noah sent a bird to find dry land.

Three days later the bird returned with a small branch. The world was now dry.

All the animals left the ark and returned to their homes.

God thanked Noah and gave the world a gift.

The rainbow.
